

Instructions for Multi-Shifter Media Tank Recharge Program

1. Issue a P.O. # to Multi-Shifter for \$ 975.00 per tank along with the \$ 1000.00 deposit (Shipping freight will be invoiced as well)
2. Contact Multi-Shifter to obtain an RGA number for your spent tanks and confirm shipping location for the recharged tanks.
3. Multi-Shifter sends you replacement tanks.
4. Once the replacement tanks are received, follow the instructions for disconnecting the spent tanks and reconnect the new tanks.
5. Ship the spent tanks back to Mobile Process to the attention of the RGA # (Shipper pays all freight)
6. Multi-Shifter will refund the \$ 1000.00 deposit back to you on receipt of the spent tanks.

~~~~~

### **Instructions for disconnecting the media tanks:**

1. Disconnect all hoses from the tanks.
2. Remove the tanks from the filter platform.
3. Attach an air source to the inlet fitting of the tank
4. Attach a drain hose to the outlet fitting.
5. Use the air pressure to force all of the water out through the drain.
6. When empty, band both tanks to a skid for shipping and ship back to Mobile Process.

Note ! Shipping weight should be around 400 Lbs. if they are properly blown out and the tanks are not considered to be hazardous material.  
They can be shipped standard van trucking at Class 55.
